

Good afternoon, all:

If you are receiving this email, it is because you are either a member of a community council or you have expressed interest in receiving updates on the City Center and/or the Mountair Streetscape.

I wanted to give you a couple updates.

First, we have a draft City Center Master Plan ready for you to review.

The Community Council and Planning Commission will be taking it up in May, with a public hearing before the Planning Commission on **Wednesday, May 15 at 5:00 pm**. There may be an earlier work session, at a date yet to be determined.

The full draft plan is here:

<https://millcreek.us/254/City-Center-Master-Plan>

I also have an excerpt of plan, which I added to a short memo that I've sent to all our community council members in Millcreek. It is attached to this email.

Second, we have the results of our Mountair Streetscape meeting on-line and available for you to review. We are working to retain a landscape architect who will work on incorporating your comments into some concepts to bring back to the community for your input. The meeting results can be found here:

<https://millcreek.us/253/Projects-Outreach-and-Participation>

Please let us know if you have any questions or comments about this plan. If you wish to no longer receive these emails, please let me know.

Thanks,

Francis Xavier Lilly, AICP
Community Development Director
